CARRY OUT/ CHECK THE FOLLOWING FOR OPERATION, SERVICEABILITY AND CONDITION:-

KEY: Ok Requires Attention N/A Not Applicable

General operations

- View vehicle history
- Check Diesel Particulate Filter/Charcoal Canister change interval
- Check Automatic Transmission Filter change interval
- Timing belt interval. Due at: miles (changed)
- Exterior bodywork inspection including windscreen & body glass
- Install car interior protection kit
- Exterior lights / lamps including headlamps, indicators etc
- Pre-service oil dipstick reading
- Pre-service road test
- Interior lights and all warning lights
- Instrument illumination
- Horn actuation
- Heater rear window
- Seat belts front & rear including anchor points if accessible
- Front & Rear Wipers including parking function
- Front & rear washer jets (adjust aim if required)
- Wiper blades front & rear
- Lubricate locks & hinges including fuel filler flap

Vehicle Lift Operations

- Engine & Gearbox oil leakage
- Transmission / differential oil level (top up if necessary)
- Exhaust system including catalytic converter (if applicable)
- Under body corrosion
- Brake pipes & flexible hoses
- Fuel lines & hoses, fuel tank if visible
- Handbrake linkages: lubricate & adjust if accessible
- Steering components: joints, gaiters, pipes and linkages
- Lubricate steering joints & stops
- Driveshaft joints & gaiters
- Suspension components: joints, dampers and pipes
- Grease all points if necessary
- Wheel bearing free play front & rear
- Remove front wheels and wheel trims (if applicable)
- Front brake pad lining and brake discs
- Front brake lining depth: osf mm nsf mm
- Brake calipers front for security & seizure
- Refit front road wheels
- Remove rear wheels and wheel trims (if applicable)
- Remove rear brake drums and hub caps (if applicable)
- Brake calipers rear for security & seizure (if applicable)
- Rear brake pad lining and brake discs (if applicable)
- Rear brake lining depth: osf mm nsf mm
- Wheel cylinders & brake retaining mechanism (if applicable)
- Clean & lubricate rear brake mechanism
- De-lip rear brake drums if necessary
- Refit brake drums & hub caps, refit rear road wheels
- Replace / Loctite rear hub nuts & split pins where necessary
- Road wheel & tyre inspection inc. spare, adjust tyre pressures
- Torque wheel nuts, refit all wheel trims securely (if applicable)

Under bonnet operations

- Top Up engine oil to correct level
- Read off any fault codes with code reader where possible
- Lubricate bonnet release mechanism
- Top up windscreen / headlamp washer reservoir
- Clutch hydraulic fluid level: top up where necessary (if applicable)
- Clutch mechanical operation: adjust where necessary (if applicable)
- Cooling system hoses, radiator and cap
- Antifreeze strength; 0° -10° -20° -20°+ (please✓)
- Coolant level top up of necessary
- Brake fluid level, check moisture content, top up if necessary
- Auto transmission fluid, top up if necessary (if applicable)
- Suspension fluid level (if applicable)
- PAS reservoir level, top up if necessary (if applicable)
- Battery for security inc wiring and cables etc
- Battery test; OK Reject Needs recharge
- Battery electrolyte, top up if necessary (if applicable)
- Lubricate battery terminals
- Alternator drive belt, adjust tension if possible
- PAS drive belt, adjust tension if possible
- *Air filter element if accessible (changed)
- *Pollen filter if accessible (changed)
- *Spark plugs if accessible (changed)
- *Fuel filter if accessible (changed)
- Air Conditioning health check (if applicable)
- Ignition leads (if applicable)
- Breather system, hoses, caps etc
- Glow plug operation (diesel only)
- Accelerator & linkage
- Fuel injector pipes (if applicable)
- Air pump drive belt (if applicable)
- Diesel injection pump (if applicable)
- Diesel smoke emissions (visual)

Final road test operations

- Engine performance: flat spots, hesitation, staling etc.
- Steering & suspension for handling, roll etc.
- Steering wander or pull & steering wheel alignment
- Clutch & gear change
- Automatic gear change including kick down (if applicable)
- Brakes: response, judder, noise, ABS response (if applicable)
- Parking brake including travel
- Instruments including speedometer & rev counter
- Fuel & temp guage, cooling fan operation
- Stamp service book, endorse any documentation
- Reset service light / interval (if applicable and possible)
- Return locking wheelnut tool if used

*Replacement at extra cost.

Re/Check Dates

YRC Check

Brake & Tyre Check

Air-Con Re-gassed Y or N * at extra cost

Timing Belt Changed Y or N * at extra cost

Tyre Size Front

Tyre Size Rear

Record tyre tread depth:

o/s frontmm		o/s rearmm
n/s frontmm		spare:mm
			n/s rearmm
			mm

Final check OK
